LANGUAGES

- Hebrew – Native
- English – Fluent

ABOUT ME

Computer Science honors student at HIT, recognized on the Dean's List, with a strong foundation in programming, problem-solving, and software development. Former combat team commander with proven leadership, teamwork, and ability to perform under pressure. Highly motivated to grow and succeed as a software developer and contribute to real-world technology projects.

SELECTED PROJECTS

DogNeeds – iOS Application
Personal SwiftUI project for managing dog care across the family.

- Built a multi-screen iOS app with reusable SwiftUI components.
- Managed centralized app state and JSON-based local persistence.
- Designed user flows for family management, walk logs, dog profile, emergency center, shops, updates, chats, and calendar features.

The Tribunal | Multi-Agent AI Courtroom
github.com/Shlomi-Hazan/ase26-the-tribunal

- Built an AI-driven debate application with four advocates and three judges, configurable agent personalities, and transparent reasoning.
- Implemented a deterministic majority-verdict mechanism, LLM orchestration, cost tracking and automated testing.

Vinyl Intelligence | AI-Powered Collection Manager
github.com/Shlomi-Hazan/vinyl-intelligence

- Built a full-stack vinyl collection app featuring ratings, favorites, notes, and listening history.
- Developed VIN, an AI music curator constrained to recommend records from the user's verified collection.

WORK EXPERIENCE

Security Officer, Meta Offices 2022 - 2024
Worked in a high-standard corporate environment requiring responsibility, reliability, teamwork, and real-time response.

MILITARY SERVICE

Combat Team Commander, IDF Artillery Corps 2019 – 2022
Led operational teams, trained soldiers, and developed strong leadership, discipline, and decision-making skills under pressure.

PRE-MILITARY PROGRAM

Rabin Pre-Military Leadership Academy 2018 – 2019
Participated in a leadership and social involvement program, including community volunteering and logistics management.
