EDUCATION

HIT – Holon Institute of Technology

B.Sc. in Computer Science

Honors Program
2024 – Expected 2027

M.Sc. in Computer Science

Accelerated Track
Expected 2026 – Expected 2028

Current GPA: 96/100

SKILLS

- Team Leadership
- Creativity
- Programming Languages:
C, C++, Python, Swift
- Algorithms & Data Structures
- Object-Oriented Programming
- TCP/IP Networking
- Tools: GitHub, Xcode, VS Code, PyCharm, Wireshark

LANGUAGES

- Hebrew – Native
- English – Fluent

ABOUT ME

Computer Science student at HIT, with a strong foundation in programming, problem-solving, and software development. Former combat team commander with proven leadership, teamwork, and ability to perform under pressure. Highly motivated to grow and succeed as a software developer and contribute to real-world technology projects.

SELECTED PROJECTS

○ DogNeeds – iOS Application

Personal SwiftUI project for managing dog care across the family.

- Built a multi-screen iOS app with reusable SwiftUI components.
- Managed centralized app state and JSON-based local persistence.
- Designed user flows for family management, walk logs, dog profile, emergency center, shops, updates, chats, and calendar features.

○ Botchat – TCP Client-Server Chat Application

Academic computer networks project developed in Python.

- A real-time chat application using raw TCP sockets.
- Implemented client-server communication logic.
- Analyzed network traffic using Wireshark and built a NiceGUI interface.

○ AI vs. Real Images Classification – ML Project

Academic ML project focused on classifying images as real or AI-generated.

- Built an end-to-end image classification pipeline.
- Implemented KNN from scratch and compared it with other ML models.
- Evaluated performance using Grid Search CV, F1-score, and macro F1.

WORK EXPERIENCE

○ Security Officer, Meta Offices

2022 - 2024

Worked in a high-standard corporate environment requiring responsibility, reliability, teamwork, and real-time response.

MILITARY SERVICE

○ Combat Team Commander, IDF Artillery Corps

2019 – 2022

Led operational teams, trained soldiers, and developed strong leadership, discipline, and decision-making skills under pressure.

PRE-MILITARY PROGRAM

○ Rabin Pre-Military Leadership Academy

2018 – 2019

Participated in a leadership and social involvement program, including community volunteering and logistics management.
